

Arundel Town Council

Link Councillor Report- November 2020

Councillor John Bradley – Community Land Trust (CLT)

The CLT held its monthly directors' meeting on 15th October. Although I was not able to join the meeting due to Full Council at the same time, I now have a 'link director', Marc Rankin.

I have continued to work with members of the CLT board, the Mayor and the Town Clerk to understand more regarding Community Infrastructure Levy (CIL) payments. The CLT wishes to work closely with ATC to ensure that any projects of benefit to Arundel are on the CIL list with Arun District Council. This will ensure that CIL funds arising from the Ford Road Project can be spend on these projects.

The Mayor raised the question of CIL at the ADC liaison meeting on 20th October. There is currently no approved list and items for inclusion are invited at the moment. The Mayor and I will be working to ensure that and ideas are fed in through the most appropriate channel for consistency. This may be via the Cycling and Walking Group but is to be confirmed.

I have discussed developments with Marc Rankin and also updated James Stewart who had originally raised the question. It is due to be discussed again at the November CLT board meeting
