

Arundel Tidal Walls Scheme – 08 January - 15 January 2024

Arundel Tidal Walls Scheme (Phase 2) schedule for the weeks commencing 08 January and 15 January 2024. Please expect a continued construction presence, including workers and deliveries of materials and equipment.

Arundel Tidal Walls Scheme Construction Work

Over the weeks commencing 08 January and 15 January, work will continue to clear excess rubble broken down as part of the wall failure and complete outfall works between the Memorial Gardens wall section and the new pile wall. To facilitate the work, the Jack-up barge will be repositioned along the river during the weeks commencing 08 and 15 January. It has been agreed with the Environmental Health Officer at Arun District Council to allow for extended hours of work during the evenings 10-12 January to allow work to be completed at low tides.

During the week commencing 15 January, the installation of a hanging access platform along the sheet piles will commence. This platform is crucial for enabling workers to carry out the subsequent phases of the project.

Updates and Closures: River Road, Tarrant Wharf, Memorial Gardens, Arun River and Mill Road

Memorial Gardens is closed whilst works continues until April 2024. Construction continues along Arun River which will require the use of floodlights on the barge. More information on the current closure to all craft along the Arun River channel at Arundel, between the A27 Bridge and Queen Street Bridge can be found [here](#).

Contact details
