

Arundel Tidal Walls Scheme – 12 February – 23 February 2024

Arundel Tidal Walls Scheme (Phase 2) schedule for the weeks commencing 12 February and 19 February 2024. Please expect a continued construction presence, including workers and deliveries of materials and equipment.

Arundel Tidal Walls Scheme construction work

Over the next few weeks, construction activities will remain reduced as work continues to progress offsite to optimise the remaining construction programme to ensure it is as efficient as possible.

On Tuesday 20th February work will commence at Memorial Gardens to prepare the new sheet pile wall for the installation of the waling beam. This work will require the temporary closure of the road where Arun Street and River Road meet to allow for materials to be transported and a vacuum excavator to be used. During this time, the bollards at River Road will be down to maintain access to homes in the area.

Please be aware that due to the extension of the overall timeline, we now expect work to continue into the summer.

Updates and closures: River Road, Tarrant Wharf, Memorial Gardens, Arun River and Mill Road

Memorial Gardens is closed whilst works continue. Construction continues along Arun River which will require the use of floodlights on the barge. More information on the current closure to all craft along the Arun River channel at Arundel, between the A27 Bridge and Queen Street Bridge can be found [here](#).

Contact details

If you have any questions about the programme or any other aspects of the work, please use the contact details below.
